Dear Sir/Madam

Subject: Research Project

My family and me have been satisfied customers of your firm for many years. So when I was asked to research a "successful local bussiness", I naturally thought of your company. I need to carry out this research for the Business Studies Diploma I am studying at Victoria University.

The research involves a brief (10 minute) interview covering the following topics:

- History of the company
- Size of the company
- Products and services provided
- Size and nature of workforce.

actual list of questions is attached.

I will ring next week to see if a representative of your firm would be agreeable to such an interview. It can be carried out at a time and place to maximize your convenience. Thanks for helping me.

Yours sincerely
